

The Philippine Government

Structures and Powers

DIFFERENT BRANCHES OF THE PHILIPPINE GOVERNMENT

The structure of the Philippine government is divided into three branches:

- the Legislative Department (Article 6);
- the Executive Department (Article 7); and
- the Judicial Department (Article 8).

THE PRINCIPLE OF SEPARATION OF POWERS

The powers of the government, by virtue of this principle are divided into three (3) distinct classes: the legislative, the executive and the judicial. They are distributed, respectively among the legislative, executive, and judicial branches or departments of the government.

Under the principle of co-equal and coordinate powers among the three (3) branches, the officers entrusted with each of these powers are not permitted to encroach upon the powers confided to the others. If one department goes beyond the limits set by the Constitution, its acts are null and void. The adoption of this principle was motivated by the belief that arbitrary rule would result if the same person or body were to exercise all the powers of the government.

PRINCIPLE OF CHECKS AND BALANCES

The three co-equal departments are established by the constitution in as balanced positions as possible. To maintain this balance or to restore it if upset, each department is given certain powers with which to check the others.

IMPEACHMENT

Impeachment has been defined as a method of national inquest into the conduct of public men. It is essentially in the nature of a criminal prosecution before a quasi-political court, instituted by a written accusation called “articles of impeachment” upon a charge of the commission of a crime or some official misconduct or neglect.

PURPOSE OF IMPEACHMENT

Its purpose is to protect the people from official delinquencies or malfeasances. It is, therefore, primarily intended for the protection of the state, not for the punishment of the offender. The penalties attached to impeachment are merely incidental to the primary intention of protecting the people as a body politic.
