

Philippine SWIFT codes

SWIFT is the abbreviation of the Society for Worldwide Interbank Financial Telecommunication. It is a unique 8-11 alphanumeric characters to standardize international financial institution in SWIFT network. It is also known as BIC (Bank Identifier Code) which is the coding use in transferring money bank accounts globally.

It was created in 1973 and was supported by 239 banks in 15 countries. The mission is to have a shared worldwide data processing and common protocol for international financial transactions. Members of the SWIFT has its own ID number called the BANK SWIFT CODE assign to them.

SWIFT CODE is the banking route for money remittance – sending and receiving internationally, easily.
