

Need a sample invocation prayer for a debut?

Debut, as in debutante?

Here's a sample:

Creator God, as we go forward in life, keep us mindful of our roots but give our spirits wings to soar. Keep us thankful of what we have been given, but give us the compassion to give to others.

Help us be open to change and growth, ever mindful that you are with us in every passage and on every journey. Make your light to shine upon us and grant us peace today and always.

Something like that.
